TECHNICAL SKILLS

C++ | Python | SQL | OOP | Data Structures | MySQL | Relational DB | Git & GitHub | VS Code

CURRENTLY LEARNING

NumPy | Pandas | Matplotlib | OpenCV | Scikit-learn

CORE STRENGTHS

- Logical Problem Solving
- Clean Code Mindset
- Fast Learner
- Teamwork & Communication

CAREER INTERESTS

- Software Development
- Backend Engineering
- Machine Learning
- AI Automation

PROFILE OVERVIEW

Motivated 3rd-semester BS Computer Science student with strong programming fundamentals in C++, Python, OOP, and relational database management (SQL). Dedicated to writing efficient backend code, building practical software projects, and learning AI/Data Science tools. Seeking a Software Development Internship to apply technical skills in a professional environment.

FEATURED PROJECTS

Student Management System Database

MySQL & Relational DB

- Architected a normalized college management database storing student, teacher, subject, class, and fee records.
- Enforced data integrity using Primary/Foreign Key constraints, views, complex SQL joins, and transaction management (ACID properties).
- Executed complete CRUD operations for efficient record querying and administrative reporting.

Python OOP Bank Management System

Python & OOP

- Built a console-based banking software utilizing Encapsulation, Inheritance, and Runtime Polymorphism.
- Implemented protected class members and method overriding to manage user accounts, deposits, and withdrawal workflows.

EDUCATION

BS in Computer Science (BSCS)

Kips College (Affiliated with GCUF)

2025 – 2029 | Currently in 3rd Semester

Core Courses: Programming Fundamentals, Object-Oriented Programming, Data Structures & Algorithms, Database Systems.

LANGUAGES

English: Professional Working Proficiency | **Urdu:** Native Speaker
